

Simple Megaminx Guide

Arranged by Andy Klise of <http://www.kungfoomanchu.com>
Algorithms mainly by Erik Akkersdijk

Orient Edges

Permute Edges

Permute Corners

Example 1

$(R' D_{fr} R) U^2$
 $(R' D_{fr} R) U^2$
 $(R' D_{fr} R) U$
 $(R' D_{fr} R) U$
 $(R' D_{fr} R) U'$
 $(R' D_{fr} R)$

Adjust U so that 1st misplaced piece ("A") is in the front right position

$(R' D_{fr} R)$

Adjust U so that A's proper location is in the front right position, note the piece now located in the front right ("B")

$(R' D_{fr} R)$

Adjust U so that B's proper location is in the front right position

$(R' D_{fr} R)$

Continue until all but one misplaced piece remains

Adjust U so that the piece in the U layer that does not have yellow is in the front right

$(R' D_{fr} R)$

Example 2

$(R' D_{fr} R) U^2$
 $(R' D_{fr} R) U'$
 $(R' D_{fr} R) U^2$
 $(R' D_{fr} R) U$
 $(R' D_{fr} R) U$
 $(R' D_{fr} R)$

Corner Orientation

Type 1

Adjust U so that the **rightmost** unoriented piece is in the front right with the U color on the **right**

$(R' D_{fr} R) U^2$

Adjust U so that the **2nd** unoriented piece is in the front right with the U color on the **right**

$(R' D_{fr} R) U^2$

Adjust U so that the **3rd** unoriented piece is in the front right with the U color on the **right**

$(R' D_{fr} R) U^2$

Adjust U so that the **leftmost** unoriented piece is in the front right with the U color on the **front**

$(F D_{fr} F' D_{fr}') U^2$

Adjust U so that the **2nd** unoriented piece is in the front right with the U color on the **front**

$(F D_{fr} F' D_{fr}') U^2$

Adjust U so that the **3rd** unoriented piece is in the front right with the U color on the **front**

$(F D_{fr} F' D_{fr}') U^2$

Type 2

Adjust U so that the unoriented piece is in the front right with its U facing the **front**

$(F D_{fr}^2 F')(R' D_{fr}^2 R)$

Adjust U so that the other unoriented piece is in the front right with the U color on the **right**

$(R' D_{fr}^2 R)(F D_{fr}^2 F')$

Do Type 2 twice
